

Hunters Green Cluster Association Committee Charter

2018 Cluster Signage Committee

Background

New communities are sprouting all over South Reston as result of development along the Sunrise Valley Dr. corridor. Hunters Green Cluster would like to showcase and market itself as a desirable community for individuals and families.

Goals

The ultimate goal of the Cluster Signage Committee will be to make a final recommendation to the Board by the regular Board of Directors' meeting in September 2018. Recommendations could include one or many of the following: keeping the status quo, purchasing cluster signage, etc.

Responsibilities

The specific scope of responsibilities of the Cluster Signage Committee include, but are not limited to:

- Look at all options for an architecturally consistent signage for Hunters Green Cluster,
- Provide details of costs to the Cluster for the signage and associated lighting required,
- Gather and incorporate feedback from the community,
- Hold regular meetings with community members and liaison Board members,
- Report back progress at each of the regular Board meetings, and
- Provide a final recommendation to the Board on how to proceed with the signage at the September 2018 meeting.

Members

The Cluster Signage committee will consist of Cluster members in good standing and a Board liaison. The regular committee meetings will be run by the Board liaison or a delegate, as appropriate. Members of the committee may volunteer to be tasked with action items to be

researched in between regular committee/Board of Director Meetings.

Conduct and Term of Charter

The conduct and authority of all Cluster Committees are defined in our governing documents. It should be noted that all Committees work at the pleasure of the Board of Directors, and in no way delegates the Board's authority or allows a committee member to make any fiduciary or any other commitment on behalf of Hunters Green Cluster.

The Board expects that the work for this Committee will be concluded in 2018 and the Committee will serve in that capacity through December 31, 2018. This charter may be changed, amended, extended or terminated as appropriately resolved by the Board of Directors.
